Experience the Heart of Tanzania with CPAR

Dear Friends of CPAR,

Some of the most meaningful moments in international development cannot be captured in a report or a photograph. They are found in conversations with health workers who are transforming maternal care, in classrooms where children are thriving because they have access to clean water and safe sanitation, and in meeting the families whose lives have been changed through the generosity of people like you.

We invite you to join CPAR on a unique journey to Tanzania – an opportunity to experience both the extraordinary beauty of the country and the lasting impact of our work alongside local communities.

Throughout the visit, you will spend time with CPAR's dedicated local team and our partners, visiting schools, health facilities, and communities where innovative programs are improving maternal and newborn health, expanding access to clean water, and creating healthier futures for women, children, and families. These visits offer a rare opportunity to see firsthand how partnerships and philanthropy translate into meaningful, lasting change.

Alongside these experiences, you will discover some of Tanzania's most iconic landscapes. From the sweeping plains of the Serengeti during the Great Migration calving season to the breathtaking Ngorongoro Crater, you will witness one of the world's greatest wildlife spectacles while gaining a deeper appreciation for the people, cultures, and natural environments that make this country so remarkable.

This is far more than a safari. It is an opportunity to connect with the communities at the heart of CPAR's mission, to better understand the challenges they face, to celebrate the progress being made together, and to see the impact your support makes possible.

We hope you will join us for this unforgettable journey of learning, connection, and inspiration.
